

## Top Note Box

Supplies I used:

- One 7" x 11" piece of card stock
- Scor-Pal or other scoring tool
- Scissor Snips
- Adhesive (Sticky Strip)
- Additional card stock and embellishments to decorate your box

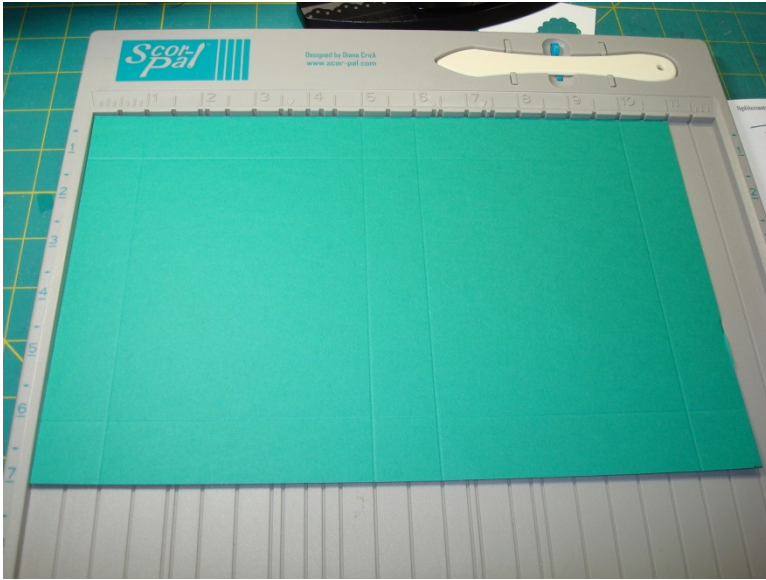

I used the pizza box tutorial from Splitcoast Stampers. Here's the tutorial [Pizza Box Tutorial](#) but tailored it to fit the Top Note Die Cut. I've provided the instructions for making the 5" x 4" box vs the 4" x 4" in the Splitcoast Tutorial.

Step 1:

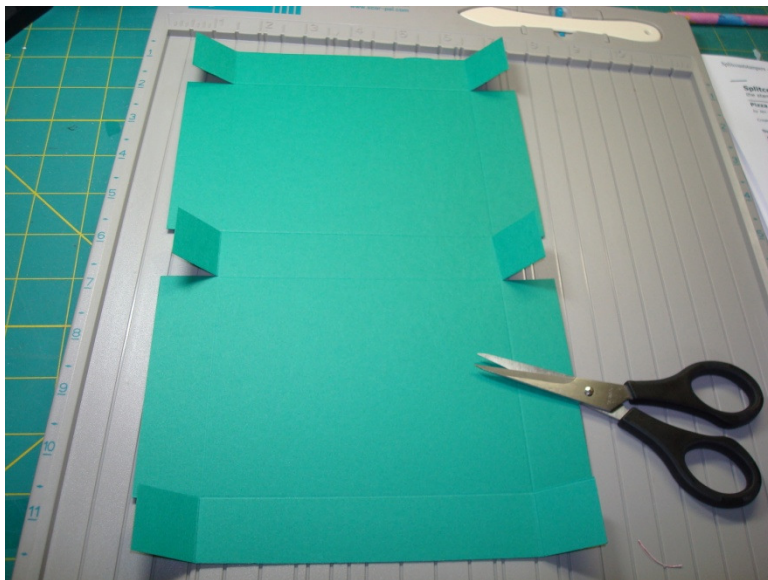

With the short side of the 7" x 11" card stock at the top of the scoring tool, score at 1" and 6"

## Top Note Box

Step 2:

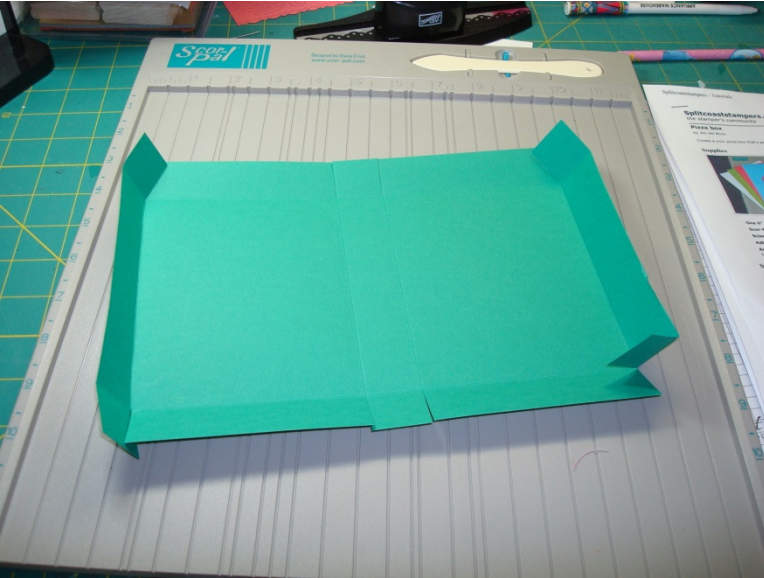

Turn card stock and on the 11" side of the card stock, score at 1", 5", 6" and 10"

Step 3:

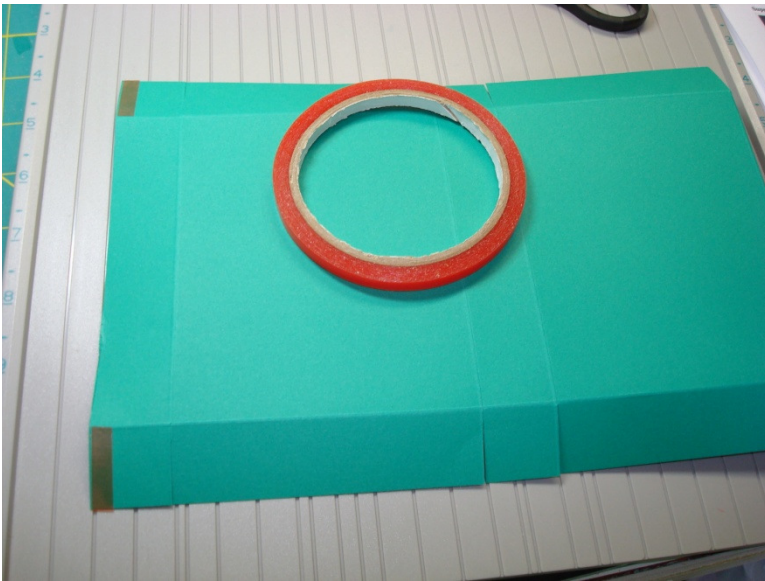

Following the scored lines along the 11" side, use scissors to cut flaps. Begin cut on outer edge of paper and stop at the perpendicular scored line as shown.

## Top Note Box

Step 4:

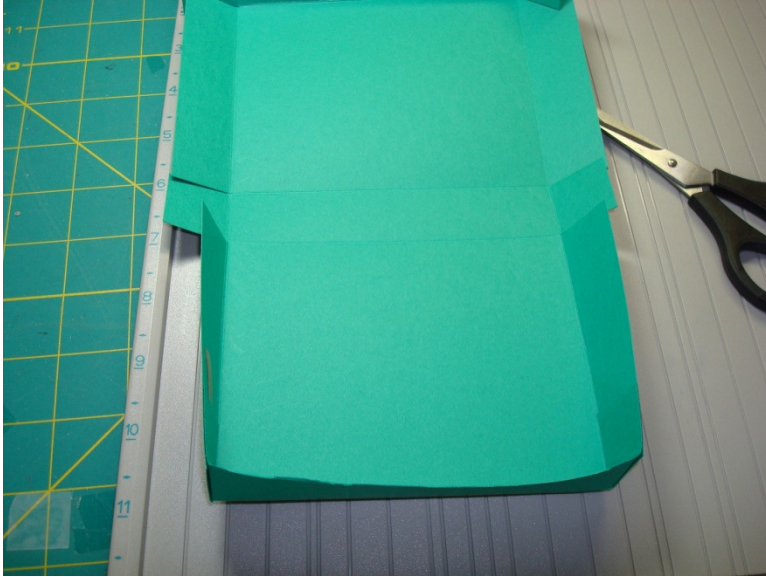

Fold on all scored lines to give them a sharp crease.

Step 5:

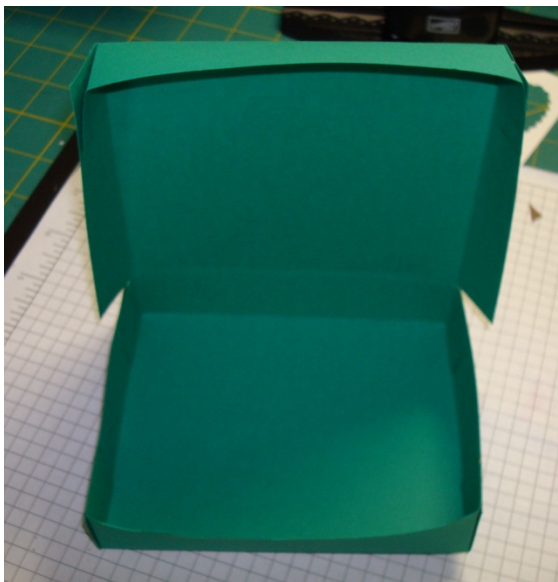

Use Sticky Strip on all flaps.

## Top Note Box

Step 6:

Adhere flaps to inside of box

## Top Note Box

Step 5:

Decorate and Fill Box as desired.
