Fabric Adhesive Roll (p. 177)							☺	☺				
Heat & Stick Powder (p. 158)					☺			☺				
Multipurpose Adhesive Sheets (p. 160, 177)	☺	☺	☺	☺	☺		☺	☺		☺	☺	
Shaker Frames	☺		☺			☺		☺			☺	☺

*2-Way Glue Pen and Multipurpose Liquid Glue can be repositionable or permanent depending on the length of drying time.

** On Board Sheets found on page 160 can be die cut along with a coordinating paper using the Big Shot. You can adhere the paper first to the board then cut or cut and then adhere.

Some adhesives not marked for a particular use do in fact work, though perhaps not as well depending on your environment and application techniques.

Acid free indicates appropriate for Scrapbooking and other archival uses though other factors may also apply for stricter archival standards.

SNAIL = Simple, Neat, Affordable, In-Line

Notes:

Fabric Adhesive sheets when attached to Fabric are washable.

Fabric Adhesive - To use: iron the adhesive onto your fabric, cut the fabric, peel off transfer sheet, and then iron the fabric die cut onto your project. See the insert that comes with the product for detailed instructions.

Multipurpose Adhesive Sheets are not washable even when attached to fabric. While not generally recommended for use with fabric these sheets can be used to attach fabric to paper.

Multipurpose Adhesive Sheets are acid free so appropriate for scrapbooking.

Multipurpose Adhesive Sheets don't hold the heavier glitters but do work for fine ones such as Dazzling Diamonds.

Multipurpose Adhesive Sheets can be used to create your own stickers from precut shapes by simply pressing them onto the Adhesive Sheet and pulling the shape up. Or you can apply card stock, fabric or Designer Series Paper to the Adhesive Sheet, run through the Big Shot, peel off the backing paper, and adhere.

Crystal Effects has the longest drying time (up to an hour and in some cases more for complete dryness) but also the widest range of applications and alternate home and craft uses.

Crystal Effects can also be colored using reinkers and/or shimmer paints

All listed adhesives available from Stampin' Up! And your Stampin' Up! Demonstrator
(See catalog for order information or call your Demonstrator)
