Easter Wishes Card

Send some color during this winter season. Create a vibrant card with colors that pop while blending. It's fun and easy to do so when you watercolor for a beautiful card. See how to watercolor with this pretty technique.

Supplies:

- **Stamp Set:** Blessed Easter stamp # 133212
- **Paper:** Watercolor Wonder Designer Note Cards & Envelopes # 133362
  Ink: Jet Black Stazon ink pad # 101406, Gumball Green ink pad # 126861, Daffodil Delight ink pad # 126944, Tangerine Tango ink pad # 126946
- **Accessories:** Aqua Painters # 103954, Rhinestone Jewels # 119246

Instructions:

1.) Stamp the Blessed Easter stamp in a Jet Black Stazon ink pad.
2.) Apply the Blessed Easter stamp to the center of the Watercolor Wonder Designer Note Card. These note cards are beautiful and are printed on watercolor paper!
3.) Squeeze the Gumball Green stamp pad into it's lid. Open and with water in the Aqua Painter paint the leaves on the tulips.
4.) Squeeze the Daffodil Delight stamp pad into it's lid. Open and use the Aqua Painter paint the center of the tulip bulbs.
5.) Squeeze the Tangerine Tango stamp pad into it's lid. Open and use the Aqua Painter to paint the edges of the tulip bulbs. Blend and highlight the leaves of the tulip leaves.
6.) The secret to beautiful Water Coloring is (a) using water color paper (b) having a solvent ink, (like the Stazon ink) so that the image stays true (c) and blending the colors into one another. Start with the lightest color and blend the darker colors into the lighter. Add more color to darken edges and lines when you go back over that area with more ink on the tip of your Aqua Painter.
6.) Add the adhesive backed Rhinestone Jewels to the outside of the oval and watercolored image. There are three sizes in the collection lending to a natural looking jeweled accent.
7.) Deliver this colorful card and wow with its beauty.
