Two Way Glue Glitter

If you are new to stamping there's one technique that you definitely want to know its awesome because it only requires two items and a paper plate or something to hold your glitter. I'm talking about the two way glue glitter technique. This is really fun technique that will give all your projects the wow factor. Line art images work best for this but you can really use it on anything because glitter makes everything look prettier don't you agree?

Supplies:

- **Stamp Set:** Peaceful Petals (w-133104) (c-133107)
- **Paper:** Gold Foil Paper (132622)
- **Ink:** Versamark (102283)
  Accessories: Whisper White Taffeta Ribbon (114319), Stampin' Dimensionals (104430), Snail Adhesive (104332), Gold Embossing Powder (109129), Heat Gun (129053), Two Way Glue Pen (100425), Stampin' Glitter - Dazzling Diamonds Glitter (102023)

Instructions:

1. You want to make sure your two way glue pen (100425) is ready to go so make sure that you have blue in the tip of the pen. If you don't then gently tap it on a scrap piece of paper until the blue glue comes out, don't worry it dries clear!
2. Take the glue pen and apply it to wherever you want glitter on your project. Wherever you have the blue glue is where the glitter will stick.
3. Place your project over a protected area like a paper plate or napkins something that will allow you to return the unused glitter to your glitter container.
3. Next take your dazzling diamonds glitter (102023) or any glitter of your choice and pinch with your fingers out of the container and sprinkle over your project or gently take the glitter container and gently tap out the glitter.
4. Gently tap your project remove excess glitter.
5. You have a wonderful project to share with your friends and family!
