- Stampin' Dimensionals®
- 1/4" Circle Punch

*From the 2015 holiday catalog

INSTRUCTIONS

1. Using a Stampin' Spritzer, color a canvas banner from the Build a Banner Kit with Hello Honey ink. While waiting for it to dry, cut a pennant from a sheet of Into the Woods Designer Series Paper. Punch two holes in the top using the 1/4" Circle Punch (use the canvas banner to align the holes). Put the banner on top of the colored pennant, lining up the holes, and thread the thick white twine through the holes; tie a knot at each end. Clip the two pieces together with Clothespins.

2. Stamp the "Give Thanks" sentiment in Rich Razzleberry ink on Whisper White Cardstock. Cut the image out in a square. Stamp the curly foliage image in Early Espresso ink over the top of the Rich Razzleberry foliage. Stamp the small branch image in Old Olive ink on the top of the Early Espresso foliage image. Stamp the "Give Thanks" sentiment a second time in Hello Honey ink on Whisper White Cardstock. Cut out just the leaves and adhere them to the top of the layered foliage. Stamp the "Give Thanks" sentiment a third time in Tangelo Twist ink on Whisper White Cardstock. Cut out the sentiment and adhere it to the top of the layered image using Stampin' Dimensionals. Adhere a Gold Metallic Foil Doily to the back of the Whisper White cardstock square and adhere the entire piece to the banner using Stampin' Dimensionals.

3. Tie some Old Olive Baker's Twine into a bow and adhere it to the top of the square piece. Adhere two Into the Woods Elements to the bottom of the Baker's Twine.

STAMPIN' UP!®
